

Putting the "care" back into Lawn Care.

GET IT GREEN!

WHAT WE OFFER

● LAWN TREATMENTS

Essential for that lush, green lawn that makes the whole neighborhood take notice. It's what your grass has always wanted!

● AERATION

Is your lawn suffocating? Well, just like people, grass needs to breathe. Essential for a healthy looking lawn.

● OVER-SEEDING

No more muddy patches. Finally, it's time to fill in all those bare spots in the yard. You'll have a fuller, thicker lawn in no time.

To achieve the best results always water your lawn during the dry/hot summer months !

OUR TREATMENT PACKAGES

Our fertilizer is a high grade, time-release formula that will provide both quick green up and consistent feed for the turf with fewer applications than the liquid-based feed some other companies may use. Each application has the necessary ingredients to provide maximum nutrition for the turf all season long.

Our spring fertilizer applications include pre-emergent herbicides to control crabgrass and other grassy weeds, and our fall fertilizer applications are formulated to sustain your lawn through winter months. All applications will include a liquid broad leaf weed control herbicide to control all leafy weeds (dandelions, clovers, etc.)

BASIC - 4 Treatments

\$ ea.

4 applications of fertilizer and weed control

ELITE - 6 Treatments

\$ ea.

INCLUDES EVERYTHING in our Basic package....

PLUS : Fall Aeration - to loosen up the soil reducing compacted thatch, making it easier for water and vital nutrients to reach the roots of your turf.

PLUS : Over-Seeding - essential to revitalize growth & fill in bare spots.*

PLATINUM - 7 Treatments

\$ ea.

INCLUDES EVERYTHING in our Elite package....

PLUS : Grub and insect control - This added June application helps terminate annoying insects and turf hungry grubs. It also helps curb moles by eliminating their main food source (grubs). **

PLUS : Spot weed treatments - For constant control - Eliminates weeds that show up between full applications. ***

* While fall aeration and over-seeding are considered individual treatments, they are completed in one visit.

** It is the customer's responsibility to maintain a minimum watering schedule of twice per week for best results during the hot summer months.

*** Only available when combined with a mowing package.
